Sarvan C | Sarvan-0

Hyderabad, Telangana - 500007, India

Objective

Computer Science undergraduate with hands-on experience in **machine learning, PyTorch, diffusion models, and data-driven software development**, with research experience in single-image generation and practical experience building and evaluating machine learning systems.

Education

- **Geethanjali College of Engineering and Technology** *2023 – 2027*
  B.Tech in Computer Science and Engineering Cheeryal, India
  - GPA: 8/10.0 (Till 3-1)
- **Narayana Jr College (DNMD)** *2021 – 2023*
  Intermediate (MPC) Dilshuknagar, India
  - Marks: 949/1000

Experience

- **Research Intern** *Andhra Pradesh, India*
  National Institute of Technology Andhra Pradesh May 2026 – June 2026
  - Worked on **Single Image Generation using Diffusion Models** using PyTorch.
  - Implemented and experimented with **StructDiff** and **SinDiff**, including preprocessing, training, and hyperparameter tuning.
  - Evaluated generated images and documented experimental results.

Projects

- **CryptoPulse** *September 2026*
  Technologies: Python, Scikit-learn, FastAPI, React [GitHub]
  - Built a cryptocurrency price-direction prediction system using **1-minute market data** for BTC, ETH, SOL, BNB, and XRP.
  - Engineered technical features and trained **Logistic Regression** models to predict cryptocurrency price direction over a **30-minute forecasting horizon**.
  - Implemented **rolling validation** and **walk-forward validation** to evaluate model generalization on unseen time periods.
- **Student Performance Predictor** *August 2026*
  Technologies : Python, Pandas, Scikit-learn, Matplotlib [GitHub]
  - Developed a machine learning system to predict student exam performance using academic and personal factors.
  - Applied **data preprocessing**, model training, and **model evaluation** using Scikit-learn to assess predictive performance.

Skills

- **Programming:** Python, C++, Java, C
- **Machine Learning:** Scikit-learn, Pandas, NumPy, Matplotlib, PyTorch
- **ML Concepts:** Classification, Regression, Feature Engineering, Model Evaluation, Time-Series Validation
- **Tools:** Git, GitHub, PyCharm, Jupyter
- **Core CS:** Data Structures and Algorithms, OOP, DBMS

Leadership Experience

- **President** *09/2025 – 07/2026*
  The Game Smiths Club [Web]
  - Led a student community and coordinated workshops, events, and collaborative projects.
  - Worked with students and faculty to organize and execute club activities.

Additional Information

Languages: Telugu, English, Hindi, German (Basic), Spanish (Basic)

Interests: Machine Learning, Artificial Intelligence, Data Science, Software Engineering
